## Welcome Back!

Hello Christine ,

I hope you enjoy this third edition of the XLerant NewsPak where you can find out about new features, learn a clever way to do something, and find out what's happening in the XLerant community.

Warm Regards,  
-Joanne E. Brunn, VP Client Services

## XLerant has Unveiled myXL

Start using **myXL** to find out why Jeff Ginsberg, Director of Fiscal Affairs and Central Services for Bunker Hill Community College, said: *"MyXL is like having my own personal assistant. I get the data I want, in the form I want it, when I want it. Done."*

### Our Perspective

When you interview CFOs that have successfully risen through the ranks... who competed with others for coveted promotions and won... you find they have three things in common.

### How do I... ?

Q. How do I export the complete Stacks & Sections configuration into an Excel file?

A. There are 2 ways to do this.

1. On the Configuration screen, choose 'Configuration Data'. This brings you to the Import Configuration Data screen. You can then click on the 'Account/Section mapping' button and choose 'Export to Excel.' This will produce an Excel file with a full listing of your stacks and sections, along with which account is mapped to each one.

2. If you want the visual of the full display, choose "Stacks & Sections" on the Configuration screen. Right-click on the image of the stacks and sections to copy the image to the clipboard. You can then paste that image (which will include all the stacks and sections, not just the ones that fit on the screen) into Microsoft Paint or any other image-manipulation program.

## Stretch Your Brain

Thanks to Cheryl Warner and Jeff Ginsberg for their participation in the Leadership Business Officers Panel
