This latest report enhancement is now available:

P&L reports now include ActionPak detail in a sub-report, similar to how line item detail is shown. This additional detail in reports can be seen:

- On the Reports page - when running the my budget summary and my budget versus reports
- On the Advanced Reporting page when running a P&L report grouped by default subtotals, when extended detail is selected.

How can I set up the automatic password reset option?

On the BudgetPak Log In page, there is an option shown to 'Reset my password'. If the designated user name is listed in BudgetPak and has a valid email address associated with it, when this option is used the user will receive an email with a one-time link to reset their BudgetPak password. The link expires after 30 minutes. This will only work if email addresses have been set up and the automatic password reset feature has been turned on.

The first step to using this feature would be to set up email addresses for all BudgetPak users. This can be done by:

1. Going to the *Configure Users* page and entering them manually,
2. Or by going to the *Configuration Data* page and importing the 'User Changes' template (to update current users), or the 'Users' template (when adding new users).

Configure users

In this section, you may define the specific users of the system and assign them to specific roles.

Once email addresses are set up, the automated password reset feature can be enabled from the *Configure Specifics* page.

Configure budgeting specifics

Company:

Est. budget impact | Leave policy | Employee Options | Expense treatment | Review Headcount notes | Fiscal year lockout | **Other** | Transaction detail

Start new budgets from defaults? When checked, BudgetPak will set the default option when starting a budget to be 'use the defaults to start.' When unchecked, BudgetPak will set the default option when starting a budget to be 'start my budget from scratch.'

Designate the custom logout redirect (if any):

Allow automated password resets? When checked, users with an email address configured in BudgetPak may reset their own passwords.

Newly-created units default to having headcount? When checked, BudgetPak will set the default option when creating a unit to be 'This unit allows headcount.' When unchecked, BudgetPak will flag newly-created units as not allowing headcount by default.

Newly-created units default to having assets? When checked, BudgetPak will set the default option when creating a unit to be 'This unit allows assets.' When unchecked, BudgetPak will flag newly-created units as not allowing assets by default.

The system is configured to support G/L transaction detail. You may store up to 1 GB of transactions.
