

## The XLERANT NewsPak - July 2020

### XLERANT's 3rd Annual BudgetPak Conference

**Updated Dates:**  
**Monday, October 18th - Wednesday, October 20th, 2021**  
**at the Stamford Marriott**

*More information to come around April 2021*

### Did you know?

*Did you know you can upload files into your Budget?*

There are two types of files that can be included in BudgetPak:

**1. Admin files** are organization-wide files that all users can access and download from within their own budgets.

- Admin files can be uploaded by a BudgetPak Administrator via the Configuration menu.

The screenshot shows the 'Configuration' menu with several sections. The 'Administration' section is expanded, and 'Files' is highlighted with a red arrow. Other sections include Dimensions, Headcount, Parameters, and Import/Export.

GENERAL ADMINISTRATION	DIMENSIONS	HEADCOUNT	PARAMETERS	IMPORT/EXPORT
<ul style="list-style-type: none"> <li>Administration               <ul style="list-style-type: none"> <li>Validate and initialize</li> <li>Locks</li> <li><b>Files</b></li> <li>Categories</li> <li>History &amp; email notifications</li> <li>Define surveys</li> <li>Configure parsing</li> <li>System note</li> </ul> </li> <li>Users               <ul style="list-style-type: none"> <li>Users</li> <li>User roles</li> <li>Password policies</li> </ul> </li> <li>Reporting               <ul style="list-style-type: none"> <li>Define P&amp;L layouts</li> <li>Configure P&amp;L layouts</li> <li>Report names</li> <li>Reports &amp; Quick Budget menu</li> <li>Tag sets</li> <li>Tags</li> </ul> </li> <li>Dashboard               <ul style="list-style-type: none"> <li>Configure dashboard</li> </ul> </li> <li>Currencies and foreign exchange</li> </ul>	<ul style="list-style-type: none"> <li>Time               <ul style="list-style-type: none"> <li>New fiscal year</li> <li>Years</li> <li>Quarters</li> <li>Periods</li> </ul> </li> <li>Versions               <ul style="list-style-type: none"> <li>Define versions</li> <li>F/X sets</li> <li>Calculation defaults sets</li> <li>Drivers defaults sets</li> <li>Unit event defaults sets</li> <li>Employee sets</li> <li>Account defaults sets</li> </ul> </li> <li>Units &amp; companies               <ul style="list-style-type: none"> <li>Units</li> <li>Companies</li> <li>Unit event defaults sets</li> <li>Configure unit event defaults</li> </ul> </li> <li>Accounts               <ul style="list-style-type: none"> <li>Configure accounts</li> <li>Configure stacks &amp; sections</li> <li>Map accounts to units</li> <li>Map accounts to subtotals</li> <li>Map accounts to sections</li> <li>Map events to accounts</li> <li>Configure allocations</li> </ul> </li> <li>Edit &amp; export               <ul style="list-style-type: none"> <li>Edit account data</li> <li>Export account data</li> <li>Edit prep account data</li> <li>Export prep account data</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>Headcount configuration               <ul style="list-style-type: none"> <li>Edit employee data</li> <li>Import/export employees</li> <li>Employee sets</li> <li>Configure salary grades</li> <li>Configure employee classes</li> <li>Map events to accounts</li> <li>Unit event defaults sets</li> <li>Configure unit event defaults</li> <li>Configure headcount options</li> </ul> </li> <li>New hire policies               <ul style="list-style-type: none"> <li>Define new hire policies</li> <li>Configure new hire policies</li> </ul> </li> <li>Hourly employees               <ul style="list-style-type: none"> <li>Edit hourly employee data</li> <li>Define wage types</li> <li>Define wage classes</li> </ul> </li> <li>Pay schedules               <ul style="list-style-type: none"> <li>Define pay schedules</li> <li>Map to employee/wage classes</li> </ul> </li> <li>Benefits by employee               <ul style="list-style-type: none"> <li>Define benefit classes</li> <li>Map benefits to accounts</li> <li>Configure benefits library</li> <li>Configure benefits selections</li> </ul> </li> <li>Tax authorities               <ul style="list-style-type: none"> <li>National tax authorities</li> <li>National empl. tax rates</li> <li>State tax authorities</li> <li>State empl. tax rates</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>Account defaults               <ul style="list-style-type: none"> <li>Account defaults sets</li> <li>Configure account defaults</li> </ul> </li> <li>Calculations               <ul style="list-style-type: none"> <li>Define calculations</li> <li>Calculation defaults sets</li> <li>Configure calculation defaults</li> <li>Configure allocations</li> </ul> </li> <li>Drivers               <ul style="list-style-type: none"> <li>Define drivers</li> <li>Driver defaults sets</li> <li>Configure driver defaults</li> </ul> </li> <li>Assets               <ul style="list-style-type: none"> <li>Configure asset classes</li> <li>Configure asset library</li> <li>Map asset classes to units</li> <li>Map events to accounts</li> </ul> </li> <li>ActionPaks               <ul style="list-style-type: none"> <li>Define shared ActionPaks</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>Account data               <ul style="list-style-type: none"> <li>Import account data</li> <li>Export account data</li> <li>Review acct data import status</li> <li>Import prep account data</li> <li>Export prep account data</li> </ul> </li> <li>Other configuration               <ul style="list-style-type: none"> <li>Import/export configuration data</li> <li>Import/export employee data</li> </ul> </li> <li>G/L transaction detail               <ul style="list-style-type: none"> <li>Review G/L import status</li> <li>Import G/L transactions</li> <li>Export G/L transactions</li> <li>Manage G/L txn storage</li> <li>Configure G/L transactions</li> </ul> </li> </ul>

Some functions may be listed in more than one place.

For more detailed instructions on how to add **Admin files**, please click [here](#).

**2. User files** are files uploaded by a Budget Holder within their budget. User files can also be mapped to specific accounts.

- User files can also be uploaded by a BudgetPak Administrator via the Configuration menu, but they can also be uploaded by a Budget Holder on the Budget Navigation Map.

The screenshot displays the BudgetPak software interface. At the top, there is a navigation bar with options like Home, Dashboard, Versions, Status, Reports, Projections, Configuration, About, and a user profile for Jennifer. Below this is a secondary navigation bar with tabs for Navigation, ActionPaks, What if...?, View/edit drivers, Across the board (all line items), Monthly spreading (all line items), Notes (2), and Files (1/1). The main content area is divided into several sections: 'Currently viewing' with dropdowns for Company (ABC Organization), Unit (10-200-01: Marketir), and Version (2021 Final Budget); 'Headcount/FTE' with data for As of 1/1/2021 (22.00), Additions (4.00), Reductions (-1.50), and As of 12/31/2021 (24.50); 'Version comparison' with a dropdown set to 'Net' and data for 2020 Actuals, 2020 Final Budget, 2021 Target Budget, and 2021 Final Budget; and 'This unit: Marketing' with a table showing Total, Your difference, and percentages. Below these is a 'Your budget:' section with a progress indicator (You are here, Reviewed) and a grid of budget categories: Revenue (Sales Revenue \$8,537,700), Cost of Services (Third Party Software \$836,550), Headcount & Salaries (Headcount Review, New Hires), Benefits (Medical \$70,731), Travel & Meeting Related (Training Fees \$23,882), and Marketing Expenses (Photography \$1,463,616). A red arrow points to the 'Files (1/1)' tab in the navigation bar.

## Thinking Differently - Price Tag

Many shops have prices set just under a round figure, e.g. \$9.99 instead of \$10 or \$99.95 instead of \$100. It is assumed that this is done because the price seems lower to the consumer, but this is not the reason the practice started. What was the original reason for this pricing method?
